NAME OF ARTWORK _____ HEIGHT OF CANVAS _____ WIDTH OF CANVAS _____ (canvas or desired illuminated area)

CLIENT/PROJECT _____ DATE _____

REVELITE AL PART #AL

--	--	--	--	--	--

HEIGHT OF CANVAS

Height less than 16" 1
 Height 16" or greater 2

WIDTH OF CANVAS **NOMINAL WIDTHS**

7 10 12 14 17 19 22 24 26 29 31 34 36 38 41 43 46 48 50 53 55 58 60

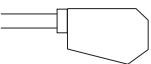

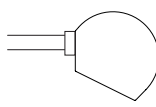

Choose the nominal width closest to the actual width of the canvas (or desired illuminated area).
 If the actual width is between two nominal widths, we recommend choosing the smaller nominal width.
 (If the canvas is over 60" wide, two or more fixtures will be used side by side and joined by a bracket. The horizontal light distribution may appear disrupted beneath the point at which the two fixtures are joined. Leave this section blank and we will select the appropriate fixtures for you. Be sure that the "Width of Canvas" section is filled out at the top of this form.)

MOUNTING METHOD

Standard Mount
 The standard mount can be attached to the frame of the painting or to the wall.

Standard Mounting
 Direct Wire Wall Mount Square Canopy
 Direct Wire Wall Mount Rectangle Canopy

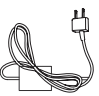

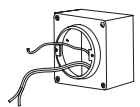

Direct Wire Wall Mount
 The direct wire wall mount attaches directly to the J-box*

*The direct wire wall mount is available in two different sized bases:
 Square: 4.5"W x 4.5"H | Rectangle: 4.5"W x 3"H
 The rectangular option must use a single gang J-box mounted horizontally.*
 A plug-in power supply is not available for the Direct Wire Wall Mount options.
